Retail Food Establishment Plan Review

The following are REQUIRED to complete your review:

□ Plan Review Fee.

 \Box Attach brief written description of the operational plan, scope of work, and what changes or construction will occur at end of form

 \Box Attach menu: Breakfast/Lunch/Dinner (including seasonal, offsite catering, and banquet menus) at end of form

 \Box Attach plans at end of form:

- Show location of business in building, location of building on site (including alleys and streets), and location of any outside equipment (dumpsters, grease interceptor, well, septic system, etc.).
- Floor plan: Show location of equipment, plumbing, and location of hood. (Minimum ¹/₄ inch scale for architectural renderings). Please identify any garage doors and outer openings.
- Plumbing plan: Show location of floor sinks and floor drains, restrooms, toilets, urinals, and all hand washing sinks, grease/solids interceptor (if required by the local building, water, or sanitation authority), hose bibs and hose reels, laundry facilities etc.

□ Attach commercial equipment specification sheets at end of form. Include cooking equipment, food handling equipment, dish machine, water heater, ice machine, etc, (sheets must include make and model numbers). Please note: If a specification sheet lists more than one piece of equipment, identify the specific equipment to be used.

□ Food Protection Manager Certification: Required prior to issuance of annual food license. Please see Public Health website, <u>https://clcpublichealth.org/environmental-health-home/food-restaurants/</u> for certification options. Attach at end of form.

□ Vomiting and Diarrheal Event Clean-Up Procedures. Submit plan describing how vomiting and diarrheal events will be cleaned within the establishment. Attach at end of form. Our office can provide a procedure if needed. Please note: All facilities are required to have a proper written procedure.

 \Box Employee Illness Policy. Information regarding exclusions and restrictions may be provided. Attach at end of form. Our office can provide a policy if needed. Please note: All facilities are required to have a proper written procedure.

*The plans will not be reviewed until the listed items are submitted.

Categories:

TCS (Time and/or temperature control for safety) Food: a food that requires time/temperature control for safety (TCS) to limit pathogenic microorganism growth or toxin formation.

Supermarket/Multi-Venue: grocery stores; more than two food areas under one license; ex. King Soopers; Walmart; Derby Club; Antelope; Little America; Horse Palace

Complex Food (Full Service): raw meat; reheating; cooling; leftovers; ex. Texas Roadhouse, Burger King, Arby's

Simple Food (Fast Food): heating pre-cooked food; bar; ex. Eagles Nest, Starbucks, Keg & Kork

Specialty Food: non-TCS food; one food type; ex. Crumbl Cookie, Yeehaw Ice

Remodel/Misc: remodeling licensed food establishments; courtesy plan review for establishments that don't require licenses

Requirements:

Other permits, licenses, or inspections may be required for you to operate. It is your responsibility to ensure that you have obtained all necessary permits, licenses, and inspections prior to operation, including:

- \checkmark Local Building Department Permit and Inspection
- ✓ Local Fire Department Inspection
- ✓ Liquor License (if selling alcohol)
- ✓ Wyoming Sales Tax License

We reserve the right to request a copy of any of the above, prior to issuing your retail food license.

Usually there are at least two inspections of your facility to complete the plan review process and obtain permission to open for business.

One will be a construction check or walkthrough inspection, and the other will be the opening inspection at which the license will be issued.

Call at least 5 business days in advance when scheduling these inspections.

1. Walk-through or construction check inspection: Usually conducted when the facility is about 95% complete. This inspection is to ensure that the approved plans were followed and that there are no other unexpected major compliance obstacles. Usually a short "punch list" is created with items to be addressed by the final inspection. Refrigeration and plumbing will be checked at this inspection. All refrigeration units should be operating at approximately 37°F to keep potentially hazardous foods at 41°F or below, even during peak use. All plumbing should have hot and cold water available.

2. Opening or licensing inspection: Is conducted when the facility is ready to open. All food, equipment, chemicals, test strips, thermometers, soap, and paper towels should be present. All items noted on the walk-through inspection report should be completed. The following will be collected at the licensing inspection:

- a. The license fee.
- b. Outstanding plan review fees
- c. Any remaining items noted in the checklist on front page.

Type of Retail Food Establishment (Choose One)							
□ Supermarket/Multi-Venue \$500	\Box Specialty / Other \$190						
\Box Complex \$360	Remodel / Miscellaneous S	\$125					
□ Simple \$250							
Days and Hour	rs of Operation						
Insert hours in the following format: 8am to 8pm							
Days: Hours:							
Seasonal: 🗆 Yes 🗆 No							
Months of Operation:							
Projected maximum num	ber of meals to be served						
Number of meals per week:							
Have plans for this establishment been submitted to the l	ocal building department? \Box Ye	es 🗆 No					
Construction Start Date: Plan	ned Opening Date:						
Indicated number of seats in each area: Indoor:	Outdoor:						
Choose one: Newly Constructed Remodeled Conversion of Existing Structure (Unlicensed) to Food Establishment Cheyenne/Laramie County Building Permit Number:							
Food Handlin	g Procedures						
Standard Operating Procedures (SOPs) must be provided	1 for cooling & reheating of TC	S foods.					
Procedures		Yes	No				
Will food be held cold? (coolers, ice bath etc.)							
Will food be held hot? (steam well, warmers etc.)							
Will food need to be washed or rinsed? 							
Will food be cooled after cooking? 							
Will food be reheated after cooling? 							
Will food that is frozen need to be thawed?							
Will food be cooked? (example: raw meats)							
Will facility serve raw, undercooked, or cooked to order							
Will foods be prepared that will be sold to other establish	hments?						
Will catering be conducted?							

Will self-service foods (i.e., buffets and salad bars, continental breakfast) be provided?Will food items such as candy, trail mix, etc. be sold in bulk to the public?

Complete applicable sections:

A.	List the prepared foods that will require rapid cooling (example: rice, green chili,
	soup, etc.). Attach SOPs at end of form.

In addition, describe what methods will be used in your facility to rapidly cool cooked food. Check only those that apply in your establishment.

 \Box Under refrigeration with continuous stirring \Box Ice water bath

- \Box Adding ice as an ingredient

□ Shallow pans/small containers

- □ Rapid cooling equipment (Blast Chiller)
- □ Other: _____
- B. List the cooked foods that must be rapidly reheated. Attach reheating SOPs at end of form.

What equipment will be used for reheating?

 \Box Stove \Box Microwave \Box Other:

C. Describe how frozen foods will be thawed:

 \Box Under refrigeration \Box As part of the cooking process \Box In a microwave

 \Box Under running water

D. Lockable personal storage area is required. Describe where personal items will be stored:

E. Describe where chemicals will be stored:

F. How will bare hand contact with ready-to-eat foods be prevented during preparation?

 \Box Gloves \Box Utensils \Box Deli tissue

□ Other: _____

Finish Schedule

INSTRUCTIONS: Indicate which materials [quarry tile, stainless steel, fiberglass reinforced panels (FRP), ceramic tile, 4" plastic coved molding, sealed concrete, painted drywall, vinyl coated ceiling tiles (VCT) acoustical ceiling tiles (ACT), etc.]. Indicate Not Applicable (NA) as appropriate.

If finish schedule is contained within architectural plans submitted, please indicate which page the equipment schedule can be found:

Note	Other:					

Note:

• Approved backflow protection must be supplied on all fixtures and equipment with submerged inlets.

- Vacuum breakers must be installed on water inlet lines for dishwashing machines, garbage disposals, and hose bibs.
- Carbonated beverage machines require an ASSE 1022 dual check valve with a minimum 100-mesh screen and may require a drain.
- Continuous pressure backflow protection devices must be installed on water lines where a valve or shut off is located between the backflow device and the inlet to the fixture/equipment, such as hose reels and pitcher-rinsers.
- Indirect drainage is required for all 3-compartment sinks, dish machines, food preparation sinks, ice bins/machines, beverage machines, and walk-in refrigeration units.
- Items may not drain into buckets.

Plumbing- Sink Sizes

Food will primarily be served on:

 \Box Multi-use Tableware \Box Single-serve Tableware \Box Both

Dish Washing Equipment

 \Box 3-Compartment \Box Dish Machine \Box Both

3-Compartment Sink

Include the size of each compartment (length x width x depth) of the three-compartment sinks, soiled and clean drainboard lengths, and whether a pre-rinse spray hose will be installed for each dish washing area, including bars.

Note: 3-Compartment Sinks must be large enough to accommodate the largest piece of equipment/utensil used and have integral (attached) drainboards and round basins.

Specification Sheet and Plan ID # for Equipment	Length (inches) of Soiled Drainboard	Length (inches) of Clean Drainboard	Dimensions (inches) of Sink Compartments (L x W x D)	Pre-rinse Sprayer Yes/No

Dish Machine							
	Provide make and model numbers and attach specification sheets for each dish washing machine at end of						
			chemical sanitizing. Indicat				
length, whether	r or not a pre-rinse		l be used, <u>utensil soak sink</u>	<u>dimensions</u> and w	vater usage in		
		gallon	s per hour (GPH).				
Specification Sheet and Plan ID # for Equipment	nd Plan Length (inches) (inches) of Orean						

** Chemical dish machine must have an audio or visual alarm for low sanitizer**

For heat sanitizing on a dish machine, is a separate booster heater provided? \Box Yes \Box No

If yes, complete table below:

Specification Sheet and Plan ID # for Equipment	Hood Type	Dimensions (inches) of Hood (L x W)	Exhaust CFMs	Total supply Air CFMs	*Outside Air CFMs

*Note: Volume of make-up air supplied into building must be greater than or equal to exhaust from building.

Water Supply and Sewage Disposal
Select the type of water supply system and sewage disposal system that services the establishment.
A. Water Supply, Sewage Disposal
<u>Water supply</u> (Choose one):
Public–Name:
Private Well Bacteriological Sample Date (required every 6 months):
Sewage Disposal (Choose one):
Public–Name:
□ Onsite Wastewater Treatment System (Septic system)— Attach location on site map at end of form. The system must be evaluated by an engineer to determine if additional capacity is necessary. A letter from an engineer must be attached. If additional capacity is required, a small wastewater permit is required.

Variance and/or HACCP Requirement

If your operation includes any of the following specialized processing methods, you may need to obtain a variance from the Wyoming Department of Agriculture.

(Check all boxes that apply to your operation)

 \Box Smoking food as a method of preservation rather than as a method of flavor enhancement

 \Box Curing Food

□ Using food additives or adding components such as vinegar:

a. As a method of food preservation rather than as a method of flavor enhancement

OR

b. To render the food so that it is not time/temperature control of safety food

 \Box Packaging of time/temperature controlled for safety food using a reduced oxygen environment

 \Box Operating a molluscan shellfish life support system display tank

 \Box Custom processing of animals that are for personal use as food

- \Box Sprouting seeds or beans
- \Box Vacuum packaging

 \Box Sous vide

 \Box Packaging raw sushi and placing in a grab-and-go cooler for customers

 \Box Freeze Drying

Attach (list of required documents):

- 1. Written operation plan
- 2. Menu
- 3. Plans: location, floor and plumbing
- 4. All equipment specification sheets
- 5. Food Protection Manager Certification
- 6. Vomiting and Diarrheal Event Clean-up Procedure
- 7. Employee Illness Policy
- 8. SOP for cooling
- 9. SOP for reheating
